

TAVERHAM HALL

Preparatory School

November 2011

TO ALL PARENTS

As a further enhancement of the school's communication channels between parents and the school, we are delighted to introduce our newly formed **Parents' Forum Group**.

At Taverham Hall School we feel that our parents form a valuable part of the school's community and recognise how important it is to gather feedback and ideas from all parties involved in the school. In line with the start of the Pupil's Forum (school council) we are also launching our newly formed Parents' Forum Group to gather comprehensive and varied feedback/ideas on general matters, school events and information evenings. In addition, it also exists to identify opportunities for further enhancement of the school's communication channels.

We recognise the importance of feedback whilst continually striving to offer the best pastoral & learning environment for our pupils. Gathering information is an important way to recognise what we are doing well and also where there is room for improvement and development.

The committee is made up of volunteers amongst our parents and staff. Membership is reviewed annually to ensure every year group is represented – each member can be contacted via email - see contact list attached.

In addition, there is also a Parents' Forum Group Suggestion Box available where comments can be posted. This box is situated by the entrance door in the Main Hall for the Prep School and there are also boxes available in the Nursery and Pre-Prep Departments.
